

Connecting the causes you care about...
with the places you shop

COMMUNITIES FOR CAUSE

Welcome to Communities for Cause! Thank you for downloading the mobile app. We are excited to help you support your favorite causes.

If you have not done so already, please download the free mobile app on your iOS or Android device. When you do, please make sure to opt-in to receive timely news and alerts from Communities for Cause so you stay informed of added benefits and features of the system.

To get the most out of the app, please be sure to enable location services. That way, anytime you use it to search for a nearby restaurant, dry cleaner or other business you will always see a list of merchants closest to you for easy reference.

Communities for Cause also features a growing Online Marketplace of web-based businesses. These merchants may be found in the offers tab of your mobile app or in the Merchant Directory on the Communities for Cause website. To make a purchase with a participating online business using Communities for Cause simply search for the merchant in your mobile app or visit the online merchant's profile page on the CfC website and click the "sign in" button on the right hand side. You will be redirected to their website and you may make a purchase as you normally would. Our system will record that online purchase – no need to snap a picture of your receipt for these purchases! Doesn't get much easier than that!

Who We Are.

Communities for Cause (CfC) empowers communities to give back through our innovative mobile advertising platform. CfC connects businesses with non-profits and schools, and their network of supporters, to drive demand for their products and services and enhance customer loyalty through manageable give-back programs. In return, causes receive an effective cause-marketing platform by which to engage their supporters and ignite their fundraising efforts. This compelling partnership empowers consumers to make giving back a fundamental part of their daily lives – no planning-ahead and no gift cards required. Just good old-fashioned donating!

Our Story.

Communities for Cause began with a simple mission: help supplement school and non-profit funds by engaging the local business community. Since then Communities for Cause has grown into a revolutionary mobile advertising platform. From the addition of online retailers, to a growing repository of turn-key marketing and advertising resources, we are transforming the way businesses grow and communities thrive
